

# Manipal arm gets GE biz

Our Bangalore Bureau

23 JANUARY

THE ASIA Clinical Research Centre of Manipal AcuNova was inaugurated on Monday at Whitefield. On the occasion, it also received from William Castell, vice chairman of GE and chairman of GE Healthcare, orders for research in the areas of diabetes, heart diseases and Parkinson's disease for an undisclosed sum.

Manipal AcuNova is a joint venture between Manipal Education and Medical Group and AcuNova Lifesciences. In the next three months, the new centre will be equipped with a clinical pathology lab, core radiology lab, cardiac safety monitoring lab and other facilities, said D A Prasanna, its vice chairman and MD.
